THE INTIMATES

Sharing the Intimate Details

If you're new to the superpowers game, you don't want just *anyone* advising you on how to best use your abilities. You want training for someone *intimately* acquainted with the assets and liabilities of the superhero life...

In *The Intimates*, a new ongoing series by *Joe Casey, Giuseppi Camuncoli, Sandra Hope, & Jim Lee*, readers will meet just such a group of newbie superbeings—and their instructors at the school where WildStorm's paranormals learn to be all that they can be... if they can keep up with the curriculum!

"*The Intimates* is a series about superhero teenagers who attend an exclusive school called the Seminary," Casey told *CSN*. "The teaching staff is made up of retired and/or failed superheroes, so this book is bursting with primary, four-colored goodness."

The book won't spotlight the entire student body of The Seminary, of course. Instead, *The Intimates* will spotlight "a core cast of five kids—Punchy, Duke, Destra, Empty Vee and Sykes—but the entire school is made up of supporting characters that will always interesting...new interactions to explore. That interaction is really what the series is about.

Casey describes *The Intimates* as "an all-ages book, so I'd say it's radically different in tone to my Mature Readers material. As for the story... we're basically following these teenagers through their school experience. They just happen to be superheroes with codenames and superpowers and costumes. It's not about 'missions' or 'saving the world' as much as it's about these kids just trying to survive adolescence. That's enough of a struggle, as far as I'm concerned. It was for me, anyway. I even think 'teen drama' might sell it a bit short. I hope it's larger in scope than that."

How did *The Intimates* come about? "After the weirdness of *Automatic Kafka* and the hard-edged, semi-complex 'adultness' of *Wildcats Version 3.0*, I wanted to tackle something aimed at what's probably this medium's ideal readership—teenagers. When I was a teenager, a book like *New Teen Titans* meant everything to me, because I was the perfect age to relate to those specific characters. This is our chance to try and do a book like that. Now, if we only knew there were teenagers out there to read it!..."

Were the character concepts created just for the series, or had some of them been bouncing around for a while? "These were characters created specifically for *The Intimates*," Casey explained. "First of all, we tried to bring back the pure, Silver Age-y kind of character concepts—like being exposed to a mysterious meteorite that crash-landed in your backyard. Or holding hands with an alien, which results in gaining superpowers. Or even being experimented on by scientist parents who have a different view of humanity's potential than the rest of the world.

"Then, *Jim Lee* and I talked a bit about what modern teenage superheroes would *really* look like, what they would really dress like... They wouldn't necessarily dress for the next super-villain slugfest, they'd dress for MTV. I think these are the most original-looking teen superheroes I've ever seen. Jim really outdid himself. *The Intimates* cast looks timeless and modern at the same time."

"Joe was incredibly helpful in this regard," Lee said. "He really made it easy to conjure up these guys...the descriptions were full of little nuanced details, down to the type of jewelry, body art, etc. I tried to come up with costumes that looked very different from your usual spandex fare while still looking superheroic. The hardest part is trying to make them look contemporary...I fully realize my limitations as a now middle aged man in trying to capture the look of today's youth. Wow—I never thought those words would come out of my mouth!" Lee said with a laugh.

"I think, as far as the designs of the characters are concerned, Jim and I worked hard to come up with things that will hopefully be timeless while, at the same time, give the sense that these are 21st Century characters and not some complete throwback to bygone Eras," Casey said. "The fact is, you can never really predict what's going to stand the test of time and what's going to be ultimately associated with a specific moment in time. The readers will be the judge."

As Casey mentioned earlier, he's earned quite a rep as a writer of such edgy, sophisticated comics as *Automatic Kafka* and *WildCats* v3.0—so how does *The Intimates* rank on that edginess scale? "I'd say it's... traditionally complex," Casey replied. "These days, if you aren't 'writing for the trade' or engaging in some offshoot of 'decompressed storytelling,' I suppose you could consider yourself out of the mainstream, but I think it's important to occasionally try to raise the stakes for everyone else and take a shot at developing some new techniques for telling stories.

"I think the ultimate goal is to create a book that strives to cover all the bases. A real *Irwin Allen*-style series that has it all... thrills, emotion, love, violence, sex, humor, suspense...! I think more comics need to be that way... just turn everything up to ten and let it rip!"

"*The Intimates* is probably the most mainstream of the projects he has created from scratch," Lee added. "He certainly talked about the book's tone, the feel of it but I had no idea what to expect when I got his original treatment.

"What makes this teen book different is that it is one of the first that has the characters acting like *teens* rather than adults acting juvenile. Joe came up with the idea of keeping them in school and having the tension, the drama come from their interaction with one another...as it was for most of us when we were teenagers.

"The fact they have superpowers just supercharges the angst and sturm and drang of it all. And most of all, this book is funny, in a strange way, and I think anyone who likes Joe's work will love *The Intimates*. And those who like teen superpower books will find the Intimates refreshingly vibrant and honest. The Intimates are some of the most unique and creative characters I have seen conjured up in some time."

Do these future heroes exist in the same world in which other WildStorm heroes exist—and if so, is there a chance that they might cross paths with other WildStorm heroes? "They *do* exist in the Wildstorm Universe, and there will be some cameos. There's an Authority fantasy sequence in the first issue, and in issue #2, I finally get to bring back a character from my first Wildstorm series, *Mr. Majestic*: his cybernetic sidekick, Desmond!"

While Casey is aware of *J. Torres*' critically acclaimed but less-well-known teen-superheroes-in-school series *Sidekicks*, he explained that "I haven't read it. Believe me, I'm well aware that teenage superheroes is not a new concept. This goes all the way back to Lee & Ditko's *Spider-Man*. The school concept... all the way back to the original *X-Men*. Hopefully, we're just pushing it into areas it's never been before."

And speaking of the school concept—what sort of classes do would-be superheroes take? "NuPhysics, Morality Class, Secret I.D. 101, Phys. Ed—and, of course, lunch. Y'know, the typical curriculum..."

Casey is known for his strong, distinctive characterization—so does that mean that *The Intimates* will be a character-driven series, or is it more plot-driven? "Both. I think each issue is really story-heavy, especially since we're doing single-issue stories. However, we're all really hoping that readers embrace the characters as we've all done with our favorite characters in the past. I mean, when I was a kid reading comics, it was all about the characters. Good stories are fine, but comic fans used to really get passionate about characters. Why else would there be a letter-writing campaign when *Michael Rooten* was cast as Batman, back in the day?

"Favorite characters are more than just fictional constructs. They have a life within our minds and our hearts that transcends the page. Not enough creators seem to do that these days... when a good character is classified as something that could be easily sold for a movie. That's not what *The Intimates* is about. If readers embrace these characters and really start to *care* about them, then I think we'll have done the job we really set out to do."

"We just wanted to come up with some cool, new characters that readers could hopefully get invested in," Lee explained. "These days, new comic book series are more often than not all about the high concept. The movie pitch. 'It's (fill-in-the-blank) meets (fill-in-the-blank).' C'mon, folks... that's not why I started reading comic books. For me, as a kid, it was all about the characters. I had my favorites and I was loyal to them. *Iron Man. Hawkeye. Nexus. The Avengers. The New Teen Titans. The Rocketeer.* Being attached to a character is one of the great things about comic books and we wanted to try and bring that back, to some degree."

An additional part of the appeal of *The Intimates* is its 'comic within a comic' concept; how does this premise work? "Well, one of the main characters, Punchy, regularly reads a comic called *Supersonic Espionage Boom,*" Casey explained. "Since they *are* superheroes, we figured the kind of comics they'd actually want to read would be spy comics. So, *S.E.B.* features a ultra-slick secret operative named Agent Boss Tempo. And by the way... Punchy's got great taste in comics, since Boss Tempo's adventures are drawn by none other than *Jim Lee* himself!"

How much Lee material will readers find in each issue? "It varies," Casey said. "But one constant I can guarantee is that Jim provides the covers for each issue, along with design guru *Rian Hughes* (who also designed the distinctive *WildCats Version 3.0* covers). Again, the covers push the envelope in their own ways, and it's fun to see Jim in a more 'experimental' context."

How did Lee get involved—and when did artist *Giuseppi Camuncoli* enter the picture? "I've worked with Wildstorm pretty heavily for the past five or six years, so Jim and I have known each other for at least that long," Casey said. "The way he tells it, it was just inevitable that he and I would work together on something. The way I tell it, I begged and pleaded with him to chip in on *The Intimates*.

"After searching for months for the perfect artist, Jim brought Cammo into the picture and it was a perfect fit. Cammo's certainly been seen in American comics, but this is his absolute best work... the work we think he'll be known for. I love working with him—I think he's one of my best collaborators. I'd put him right up there with my other favorites: *Ladronn, Sean Phillips, Charlie Adlard, Dustin Nguyen, Javier Pulido, Steve Parkhouse, Steve Rude*. Cammo absolutely belongs on that list."

"I first met Cammo at a comic book convention in Naples in 93," Lee said, "and I thought his work was really strong...not just the figurework but the storytelling. In the past year, it has really come up a notch...it reminds me a lot of *Frank Quitely's* work...even *Paul Smith*. I like how it looks cartoony but very real at the same time. He does things with body language and expressions which are very subtle and really makes his characters seem alive and real. And those were the qualities Joe and I were looking for for *The Intimates*. I sent *Vertigo Pop Bangkok*—the most recent work of Camno at the time—to Joe and he loved it just as much and that got the ball rolling.

"Since then, I moved to Italy for a year and Camno and I started up Studio Gioco Duro and worked in the same office overlooking a bar and a lingerie shop so it's been a great year...and very cool to see the adventures of *The Intimates* brought to life just ten feet away."

The Intimates breaks with the current industry norm of working in multi-part trade-paperback-friendly story arcs. "The way we've structured this series breaks away from the notion of 'arcs' Instead, we're jamming as much stuff as we can into every issue. In a way, we want The Intimates to have the feel of a great sitcom, where every 'episode' is fairly self-contained. If readers come back every month, I want them to come back for the characters. It may be a bit naïve, but we actually want readers to care about these characters. What a concept, huh? We want them to pick favorites and stay loyal to them, no matter where those characters take them."

What's the most rewarding aspect of *The Intimates* as far as Casey is concerned? The most challenging? "Everyone who's seen what we're doing here has said the same thing, 'It feels like reading three comics instead of one!' We've made a commitment to jam-pack each individual issue with as much material, as much story, as much emotion as we can fit into twenty-two pages. It's the most work-intensive experience I've ever had in this business, but it feels great.

"We're flying in the face of just about everything that's in vogue right now, so there's this feeling that we're taking a huge risk here. But if I was going to jump into another *new* concept in the marketplace where "new" is not so quickly embraced—I wanted to go all out and really take that kind of risk. But the way this book has come together has exceeded everyone's wildest expectations. I just hope the readers like it as much as we do!"

The Intimates #1, a $2.95 comic, is scheduled for November 3rd release.

The October 2004 *PREVIEWS* has cool stuff that starts shipping in December!

On the front: One of the most anticipated returns of the year begins as Mark Waid and Barry Kitson – the critically acclaimed team of the miniseries *Empire* – rebuild **The Legion of Super-Heroes** in a way no one can afford to miss!

On the back: Writers Keith Arem and Scott Cuthbertson, and artist Christopher Shy unleash **Ascend**, the dark, intriguing and seductive graphic novel of three banished angels waging an epic war on Earth! From Image Comics this December!

Plus:

- *Concrete Returns!* Winner of six Eisner and three Harvey awards for *Concrete*, acclaimed creator Paul Chadwick returns with **Concrete: The Human Dilemma**, his first *Concrete* mini-series in six years! Coming this December from Dark Horse Comics!
- *Call the Roll… AGAIN!* One of the most anticipated returns of the year begins as Mark Waid and Barry Kitson – the critically acclaimed team of the mini-series *Empire* – rebuild **The Legion of Super-Heroes** in a way no one can afford to miss! From DC Comics this December!
- *Desperado Times Call For…!* The **Desperado Primer** (previewing the new Image Comics imprint debuting this December) features an amazing line-up of some of the world's best writers and artists – include Paul Jenkins, Adam Hughes, Brian Stelfreeze, Cully Hamner, Phil Hester, Kelsey Shannon, Jason Pearson, and Tony Harris.
- *Ultimate(s) Return!* The **Ultimates** return in this blockbuster first issue! It's been one year since they stopped an alien invasion, and now things get hard. New members, new costumes and 12 months of gossip to catch up on! Be sure to check out this month's *Marvel Previews* magazine for all the details!

And:

- Evan Dorkin and Sarah Dyer present the first issue of **BIFFI! BAM! POW!**, their new, full-color anthology with all of the things that make the universe go 'round – superheroes, monsters, monkeys and the neverending battle between the good, the bad, and the stupid! This December from Amaze Ink/Slave Labor Graphics!
- Who is **Infantry**? What is his agenda? Is he a new hero of the people... or merely a pawn in a larger game? Find out this December when Joe Casey (*Wildcats, Uncanny X-Men*) and Clement Sauve (*Wetworks*), unleash this political thriller wrapped in an over-the-top action tale from Devil's Due in December!
- Ian Edgington & Simon Fraser present their lavishly illustrated adaptation of Richard Matheson's (*I Am Legend*) **Hell House**, the tale of a mortally-ill millionaire who hires a team of experts to learn the secrets of life-after-death. To do this, they must survive a night in Belasco House… the "Hell House!" The haunting begins in December from IDW Publishing!
- **Major Damage** is the tale of a little boy who is transformed into his favorite super hero, protecting the world from mutants, monsters, and alien scum! Featuring comics, sketches, and a behind-the-scenes look at the award-winning 3-D animated short by Chris Bailey (Director of Disney's *Kim Possible*)! Coming this December from Sky Dog Press!

Non-Stop Fun!

Don't miss out on:

- **Marvel Milestones: Venom Statue** from Diamond Select Toys!
- **Frank Miller's Sin City: Marv Statue** from Dynamic Forces!
- **Black Panther Statues** in the Statues & Models Section!
